

Dr. A. Atiq Rahman, Executive Director, Bangladesh Centre for Advanced Studies (BCAS), welcomed the participants and expressed that CDM is a major way for implementing climate change convention and the Kyoto Protocol, and to ensure that human activities do not result in environment destruction. He gave a presentation on the “ Climate Change: Responses” . He emphasized on stabilization of greenhouse gas concentration in the atmosphere at a level that would prevent dangerous anthropogenic interference with the climate system. He also pointed out that such level should be achieved within a timeframe sufficient to allow ecosystems to adapt naturally to climate change, to ensure that food production is not threatened and to enable economic development to proceed in a sustainable manner.
